

## BFA Client Conference 2026

BFA held its inaugural Client Conference on Tuesday, March 10. It was a pleasure to connect with so many of our clients and colleagues throughout the event.

The conference featured a series of educational sessions covering topics presented by partners Javier Bleichmar, Erin Woods, Nancy Kulesa, and Ross Shikowitz including case-starting insights, an introduction to securities litigation policies and non-U.S. litigation, forced arbitration and other changes within SEC enforcement, and private credit updates and trends in securities litigation.
