

BFA Partner Erin Woods Attends *Bloomberg Law's* Women in Law Leadership Forum

BFA Partner Erin Woods thanks *Bloomberg Law* for the invitation to attend its Women in Law Leadership Forum last week in New York, focused on how key decision makers drive real business impact. The program explored leadership as a strategic advantage—focusing on visibility, trust, judgment, and influence in today's rapidly evolving, technology-enabled legal landscape.

It was a pleasure to hear from leaders at *Bloomberg Law*, to learn from a compelling keynote address by Lakeshia Ekeigwe, Founder & CEO of LeaderThinking Global, to attend the panel discussion of women executive leaders of their law firms and corporations, and to connect with other attendees.
